

PRESS RELEASE

Eon Art and Oracle Audio are pleased to announce their participation at the Montréal Audio Fest March 22 through 24, 2019.

You will be able to experience the exceptional **Quark amplifier** and **Tachyon converter (dac)** from **Eon Art** with the **Venus Acoustic Cybela loudspeakers**. **You will also be able to experience** the magnificent sources from **Oracle Audio** including the **Cd 2500** drive and the **Delphi and Origine turntables**.

In January of 2017 Eon Art Canada and VENUS Acoustic combined their strengths to enhance their expertise in electronic, acoustic and the computing fields. **They established their offices in Chandler, Quebec. The group uses sources from Oracle Audio Technologies.**

The Oracle Audio team define themselves as artists who produce unique sculptures . They are **constantly looking for their products to simply reproduce all the music: the real and the true**, so that the experience makes you vibrate and shiver! **The flagship product, Oracle Delphi, is in its sixth iteration.** CD players, phono amplifiers and new models of turntables, including **the latest Origine**, have completed the range.

VENUS Acoustic has a history dating back to the early 2000s. Its founder, **Nicolas Dutrieux**, designed and assembled an impressive line of acoustic speakers that **were exported to France, Spain, Germany and the Caribbean**. It should be noted that **a patent was registered in France and that several other concepts remain specific to the VENUS line.**

Eon Art has been producing OEM engineering and production services since 2008 and was founded by **Stéphane Hautcoeur**; a leader in the development of amplifiers in Europe and America. He was **one of the first to modernize and formalize research and development methods for audio electronics** using a **process of optimization by scientific supercomputers for circuit design**. Particular attention was paid to the frequency response, dynamics and transparency of their products. The company has installed **the largest and most modern audio electronics laboratory in Canada at its Chandler facility.**

SALON AUDIO MONTREAL AUDIO FEST

The Montreal Audio Fest, which celebrates 32 years, will be held at the **Hôtel Bonaventure Montreal**, and attracts **more than 5,000 visitors**, men and women of all ages, who want to listen, see and touch **more than 300 brands** of audio products under one roof. It is **the largest gathering** of Canadian audio-video manufacturers, distributors and retailers.
