Kanto to Exhibit Its New TUK High-End Powered Speaker With AMT Tweeter, Bluetooth®, Phono Connectivity and More

At the Montreal Audio Fest, [Kanto](#) will exhibit its new **TUK high-performance powered speaker with wireless capability.**

Kanto's TUK features a newly-designed Air Motion Transformer (AMT) tweeter for superlative high-frequency resolution and clarity, complemented by an aluminum concave-cone woofer and a powerful 65 watt-per-channel amplifier. It offers versatile wireless and wired connection options, making it the perfect all-in-one speaker system.

Designed for true high-end powered speaker performance, TUK (MRP: \$799 US / \$999 CAD) provides high-quality wireless Bluetooth music streaming with Qualcomm® aptX™ HD, plus analog and digital audio inputs. In addition, TUK's phono preamp accommodates any turntable. TUK is especially suited for nearfield and desktop listening, with features including a built-in headphone amp and a USB DAC.

Available in matte black and matte white, TUK also has a remote control, subwoofer output and more. It will begin shipping in mid 2019.

Experience Kanto's TUK at The Montreal Audio Fest in Room 2335
