

## PRESS RELEASE – For Immediate Release

Boucherville, Canada  
February 19, 2019

### **Simaudio is proud to present the MOON 390 at Montreal Audio Fest**

MOON by Simaudio invites show attendees to visit room **Outremont 5** during Montreal Audio Fest (March 22<sup>nd</sup> to 24<sup>th</sup>, 2019, Bonaventure Hotel) to experience the new MOON 390 Network Player / Preamplifier, combined with a pair of MOON 400M Monaural Power Amplifiers paired with the new Dynaudio Confidence 20 speakers.

#### **MOON 390: The Gateway to Great Sound**

The MOON 390 offers a complete high-end listening solution. Featuring a DAC, preamplifier, headphone amplifier, phono stage and network streaming capability (MiND 2 technology), it is a truly flexible and high-performance heart of a music system. With a host of analog and digital connection possibilities, no matter how you play your music, the MOON 390 will reveal astonishing levels of detail and realism.

#### **Product Highlights**

- ROON Ready device
- Tidal Masters, Deezer Hi-Fi and Qobuz Sublime+ Music Services
- MQA and DSD decoding
- Stream a local source to other zones
- Multi-room synchronized playback
- High end ESS DAC PRO chipset
- Up to 32-bits / 384 kHz sampling rate
- HDMI 2.0 switcher (4k, HDCP 2.2)

#### **About MOON by Simaudio: The Performance of a Lifetime**

MOON believes that nothing should stand between the authenticity at the time of recording, and the listener. This proximity is their goal; this intimacy is their passion. That is why, since 1980, MOON engineers have been obsessed with exceeding the limits of sound purity and redefining the impossible.
